

6RC230

A brand new, multi-purpose rotating display from Taymar. Designed to serve as a desktop spinner or floor standing carousel, the 6RC230 is a great addition to the Taymar rotating range. The pockets accommodate A4 and 1/3rd A4/DL literature (where CD pocket dividers are used).

Unlike other Taymar spinners the 6RC230 is moulded in one piece, resulting in a simple and easy, attractive product, in line with the quality you have come to expect from Taymar. The unit will be available as two options.

The 6RC230 unit itself will also be available as a 'component' for additions / replacements (pictured left).

Desktop Application

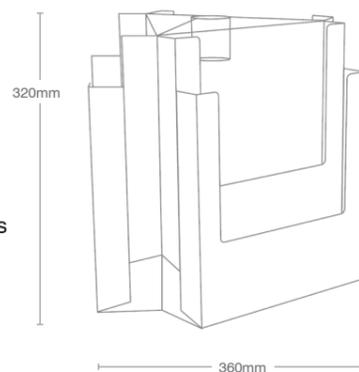

The 6RC230 pocket assembly has built in fixing points to allow a lazy susan unit to be applied completely hassle free, thereby creating an A4 and/or 1/3rd A4/DL desktop spinner.

6RC230C - Desktop

6 pocket A4 desktop spinner. Convert pockets to 1/3rd A4 using CD Dividers (available separately)

Carton quantity 1
