

# Clearly the best

Premium quality, UK manufactured leaflet dispensers

# Brochure Holders International

Brochure Holders International Limited is part of the global Taymar group recognised as a world leading manufacturer of premium quality injection moulded leaflet holders/brochure display units. The corporation has built an industry wide reputation for deliverable quality with its 'Taymar' brand which is founded on three fundamental commercial tenets: Service, quality and competitive pricing.

Trading began in the early Eighties and the group has been a driving force in helping world commerce better present its products and services at the point of sale and purchase. We offer one of the worlds largest ranges of 'crystal clear' wall, floor and counter standing brochure display options. Our aim is to provide European businesses with a classic point of sale solution to help them sell more.

# Corporate Strategy

The entire range of recyclable Taymar products is manufactured to the highest quality control standards. We aim to add new products to our range each year and continue to invest heavily in research and development. Latest state of the art, robot-driven, multi-cavity injection moulding machines enables the company to maintain both quality control targets and a keenly competitive pricing strategy.

Our sales are primarily channelled through an extensive range of wholesalers and other kinds of distributors. Comprehensive stock availability is key to our corporate strategy and our location, which is close to ports, airports and major road links, allows us to fulfil a market-leading 99% of all orders within 24 - 48 hours.

Our success has been underscored with first class support for our key distributor network. With the help of our expert in-house team we can provide our customers with rapid order fulfilment across every European territory.

# Our Catalogue & Website

We are delighted to present the new catalogue which has been designed as a reference tool for the items in our Taymar range.

Detailed product information can also be found on our website [www.brochureholders.co.uk](http://www.brochureholders.co.uk). Pricing is available separately.

# Contact & Advice

We have considerable combined experience in the world of display product and the injection moulding process. If you are interested in representing or stocking our products or if you are an existing distributors wishing to increase product range offered our team of knowledgeable staff are on hand to assist with your requirements and technical queries.

to hold: 297 x 210mm

# 7. Wall System

Probably the most ingenious and cost effective method to display all literature - even the most unusual paper sizes! Fully adjustable in width with versions for attaching directly to slat-wall or for use with our own aluminium wall strip (AL95). Alternatively, opt for the ready made kit system that is both easy to install and with stunning effect

More details available by visiting [www.brochureholders.com](http://www.brochureholders.com)

Wall Mounted

**Wall System**  
3 pocket adjustable width holders  
Carton quantity 60 | Opening dimensions: 32mm

- 3PSW**  
3 pocket adjustable width holder stat-wall fitting
- 3PAS**  
3 pocket adjustable width holder AL95 fitting

**Unique Adjustable Wall Mounting System**  
A superb, innovative product allowing for infinite flexibility in displaying your literature.  
A product which can be set up to hold any size material, this system has the bonus that single pieces can be added on as required, with each additional module creating an extra 3 pocket display at less than half the cost of a standard brochure holder. This unique system has been developed for use in all types of locations, especially where wall space is limited.

**Two versions have been developed:**  
**3PAS** - for use with our unique clip-on aluminium strip, AL95, incorporating a ticket strip facility. This system can turn whole walls into an adjustable display system which can be changed to accommodate any size material - standard or not - at any time. Cut aluminium strip to the required length and screw to wall or display board through the holes provided. The inclusion of a ticket strip enables you to highlight important information or special prices.  
**3PSW** - for use with slat-wall displays; modules clip into standard slat and slides to the required position.

Each additional module provides 3 more pockets  
**Example:**  
Just 5 modules on the 95cm (37") strip provides a 12 pocket display of A4 (letterhead) size literature.  
9 modules allows for a 24 pocket display of 1/3rd A4 (trifold) literature.  
7 modules for an 18 pocket display of A5 (1/2 letterhead) literature.  
Or mix and match to display you literature to maximum advantage

Wall Mounted

**WS16-D8**  
A4 Wall-mounting kit providing 16 x A4 or 8 x A4 + 16 x 1/3rd A4 pockets

# 8. Accessories & Parts

By clever use of simple adaptor clips, Taymar products become increasingly versatile. Easy to convert wall mounting holders for counter standing or to attach to slat-wall.

950mm Aluminium strip  
Carton quantity 20

Accessories

**CD**  
Pocket divider used to divide A4 portrait/landscape pockets

Accessories

**LS101**  
100mm Lazy Susan

**LS145**  
145mm Lazy Susan

**LS225**  
225mm Lazy Susan

# 9. Screen Printing & Vinyl Labels

Add that little bit extra to your display!

Personalise holders with your company logo, a message or advertising slogan. We can offer you a customised printing service to apply your message, slogan or logo directly onto the brochure/information holder of your choice. The service includes Screen Printing or Vinyl Labels, both of which are fantastic ways to personalise Taymar products and achieve fantastic results.

### Printing Areas

The following pages show the maximum screen printing area of each product in the Taymar range. In most cases, vinyl labels have slightly more flexibility and can also be applied to the sides of units as well.

### Requirements

We are PC based. MAC files should be saved in PC format. Most common design and graphics programmes are supported. All fonts must be converted to curves, paths or outlines (Vector files). This avoids font matching and resolution problems and enables us to apply trapping or to make modifications to suit screen process print.

EPS & TIF Files: TIF files must be provided to highest possible resolution and should be at least 1200dpi. For line work all colours should be set as Pantone spot colours and not as CMYK.

Portable Document Files (PDF): PDF files are supported and all fonts must be converted to curves etc as above.

GIF – JPEG – BMP & Word files: GIF - JPEG - BMP and Word files are not acceptable for use as artwork. These files are normally not suitable for reproduction.

Camera ready Artwork: Camera ready artwork can be accepted but this will be scanned and converted to an electronic file.

### Brochure Holder & Leaflet Holder Artwork Preparation

It is preferable to supply line artwork for these products but this does not rule out halftone or four colour process work provided the design allows for any screen resolution restrictions. We suggest that any tints are between 30% and 70%.

It is advisable to check the compatibility of your programmes with us before dispatching artwork. However, provided it is supplied as a vector file with all fonts converted to outlines there should not be a problem. Please ensure a proof is supplied showing any special instructions. Artwork should be adapted to suit screen process printing. Colour separations, trapping, order of printing colours can be significantly different to lithographic printing.

### Brochure Holders & Colour Matching

Certain colours may appear slightly transparent when printed on to clear products. This is due to the pigments used in the manufacture of the inks. In many cases a background colour, such as White, will have to be printed.

### Colour Matching

We use the Pantone reference system. If a reference colour is not available then a suitable swatch should be supplied. Adjustments have to be made to suit the substrate.
