

# Clearly the best

Premium quality, UK manufactured leaflet dispensers

# We help Europe sell more

Brochure Holders International (part of the Taymar Group) is a world-leading manufacturer of premium quality, injection moulded brochure display units. We provide European business with a classic point of sale solution to help them sell more.

**Brochure Holders International (part of the global Taymar Group) is a world-leading manufacturer of premium quality, injection-moulded brochure display units.**

We provide businesses with a classic point of sale solution to help them sell more. As a major UK manufacturer of injection moulded leaflet holders we offer customers one of the world's largest ranges of 'clear view' wall, floor and counter standing display options.

## **Close links with our key distributors**

Since the early Eighties this group has been a driving force in helping world commerce better present its products and services at the points of sale and purchase. Now, from our new UK Distribution and administration depot, we are working even more closely with our growing European distributor network to develop the Taymar product line.

## **On Time, In Full, No Errors**

Brochure Holders International is a dynamic and highly successful company full embracing the aspirational OTIFNE trading principal: On Time, In Full, No Errors. Our purpose-built, 22,000 sq. ft. Essex-based Distribution Centre is close to key ports, airports and major road links - allowing us to fulfil a market-leading 99% of all our orders within 24 hours.

## **Rapid, bespoke and all-inclusive order fulfilment**

Comprehensive stock availability is fundamental to our corporate strategy. Distributors don't need to carry stock. We carry it for them.

Since our relocation we have increased our stock-holding capability by a factor of five, enabling our expert in-house teams to provide distributors with rapid, bespoke, all-inclusive and virtually error-free order fulfilment across every European territory.

## Now. Then. And Tomorrow.

**Taymar Brochure Holders, founded in Australia in 1982 by industry visionary Stephen Taylor, rapidly gained international acclaim for its innovative manufacturing strategy; 'one piece' injection moulded units.**

This new solution provided lower cost products with greater in-built strength and durability than the 'bent and glued' acrylic leaflet holders available at the time. Today the company has a global outreach and has evolved into one of the world's largest manufacturers of injection moulded display components. The corporation has built an industry-wide reputation for deliverable quality with its 'Taymar' brand now widely accepted internationally as the 'gold' standard for leaflet/brochure holders.

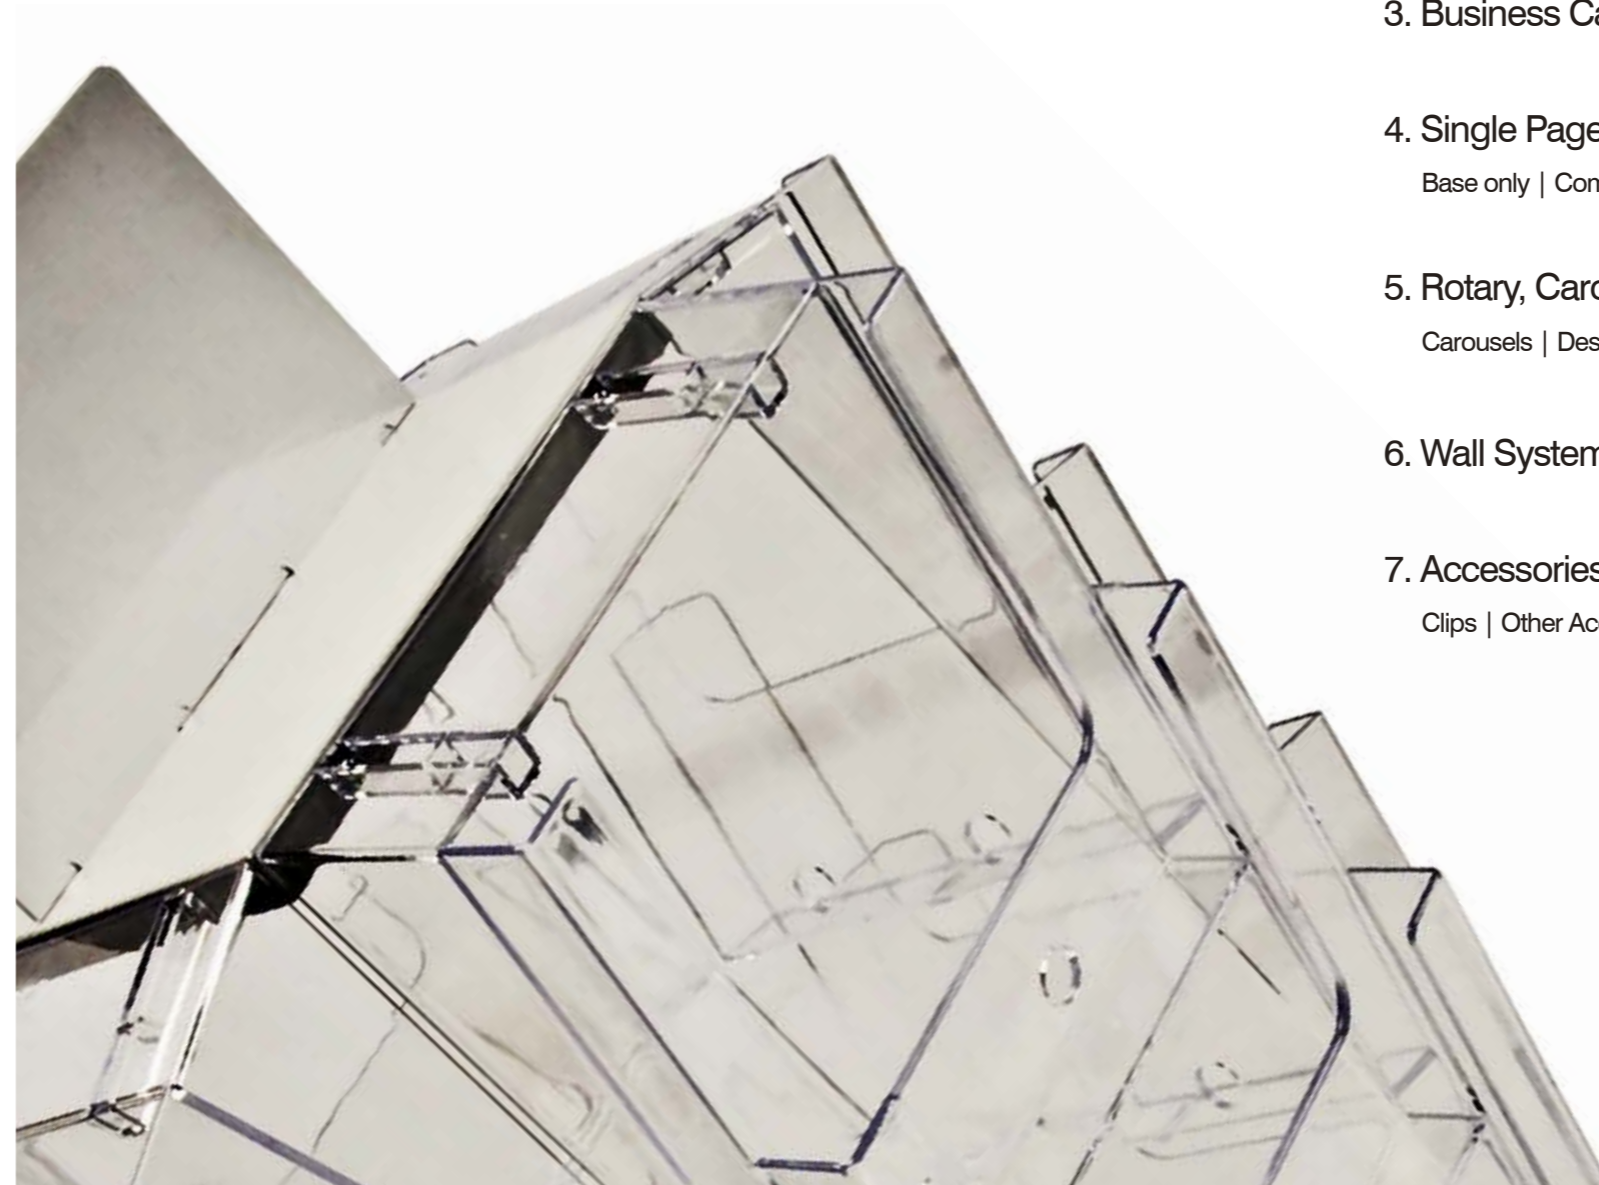

The autonomous European Division was launched in the UK in 1987 with just three key products. This has grown to be the Taymar group's largest satellite - and following a strategic move to a new Distribution and Administration HQ near Stanstead Airport, Essex, the company has significantly increased its turnover, profitability and delivery efficiency.

**The organisation's reputation is founded on three fundamental commercial tenets: Service, quality and competitive pricing.**

And its success has been underscored with world-class support for its key distributor network. The entire range of recyclable Taymar products is manufactured to the highest quality control standards. Brochure Holders International adds new products to the range each year (including latest multi-tier and multi-purpose and continues to reinvest heavily in research and development.

Latest state of the art, robot driven, multi-cavity injection moulding machines enable the company to maintain both quality control targets and a keenly competitive pricing strategy. Through its distributor outlets the company supplies a number of leading multi-national clients, including some of the world's top electronic giants and motor manufacturers

The future looks clear for Brochure Holders International with its stable and solid nucleus of regular customers.

## 6. Wall System

Probably the most ingenious and cost effective method to display all literature - even the most unusual paper sizes! Fully adjustable in width with versions for attaching directly to slat-wall or for use with our own aluminium wall strip. Alternatively, opt for the ready made kit system that is both easy to install and with stunning effect

More details available by visiting [www.brochureholders.com](http://www.brochureholders.com)

**Wall Mounted**

**3PSW**  
3 pocket adjustable  
width holder  
stat-wall fitting  
opening dimensions:  
32mm

**3PFB**  
3 pocket adjustable  
width holder flat back  
opening dimensions:  
32mm

**3PAS**  
3 pocket adjustable  
width holder AL95 fitting  
opening dimensions:  
32mm

**WS16-DB**  
A4 Wall-mounting kit  
providing 16 x A4 or  
8 x A4 + 16 x 1/3rd  
A4 pockets  
opening dimensions:  
32mm

**Unique Adjustable Wall Mounting System**

A superb, innovative product allowing for infinite flexibility in displaying your literature.

A product which can be set up to hold any size material, this system has the bonus that single pieces can be added on as required, with each additional module creating an extra 3 pocket display at less than half the cost of a standard brochure holder. This unique system has been developed for use in all types of locations, especially where wall space is limited.

**Three versions have been developed:**

**3PAS** - for use with our unique clip-on aluminium strip, AL95, incorporating a ticket strip facility. This system can turn whole walls into an adjustable display system which can be changed to accommodate any size material - standard or not - at any time. Cut aluminium strip to the required length and screw to wall or display board through the holes provided. The inclusion of a ticket strip enables you to highlight important information or special prices.

**3PSW** - for use with slat-wall displays; modules clip into standard slat and slides to the required position.

**3PFB** - for gluing; ideal for permanent displays.

Each additional module provides 3 more pockets

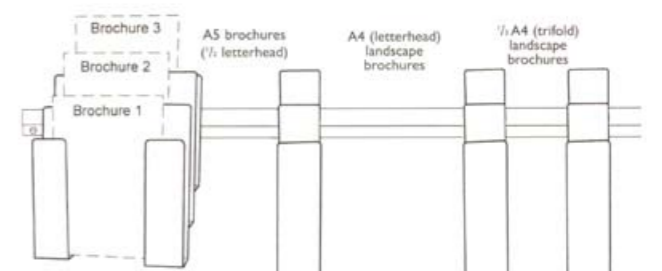

**Example:**

Just 5 modules on the 95cm (37") strip provides a 12 pocket display of A4 (letterhead) size literature.

9 modules allows for a 24 pocket display of 1/3rd A4 (trifold) literature.

7 modules for an 18 pocket display of A5 (1/2 letterhead) literature.

Or mix and match to display you literature to maximum advantage

## 7. Accessories & Parts

By clever use of simple adaptor clips, Taymar products become increasingly versatile. Easy to convert wall mounting holders for counter standing or to attach to slat-wall

To see all options visit [www.brochureholders.com](http://www.brochureholders.com)
